

Be Inspired Languages is an Agent for Language Schools and Further Education Colleges in London and the UK.

Here at Be Inspired Languages we always put the student first.

- We only place students in schools and colleges that we have a first class relationship with and that many of our staff have previously studied with
- We never charge you more than schools would charge directly, so you get an added bonus of having our highly trained staff manage your experience with schools in the UK
- We can help with your visa application, and with Russian, English and Spanish native speaking staff we can more professionally manage your visa application than many schools
- 

You do not need to pay anything to us , you will pay for the course directly to the school or college, We work on a commission basis, but we will be with you from the first moment you contacted us until the moment you leave the UK

We have many years experience working in and with schools in the UK and we would love to help you achieve your study goals.
